2019
Pandallur Higher Secondary School
80%

2024
Saveetha School Of Engineering
CGPA 8.2

About Me

I am a diligent, well-prepared, and meticulous person. I'm a great team player with strong interpersonal skills, and I'm eager and eager to learn new things. I am trustworthy and dependable, and I frequently look for new duties in a variety of professional fields. I approach my work and completing tasks in a proactive and dynamic manner. I make decisions quickly and firmly. I locate and create possibilities.

Projects

Smart Door Locking System using Smart Phone

The Esp32 is a gadget that can communicate with other devices in a variety of ways. We connected with the home router using its wifi capabilities. Which, the door lock can be accessed by devices connected to the same wifi network using an Android app and biometric authentication.
Technologies used:
·**Arduino Uno is a microcontroller board based on the ATmega328.**
·**ESP8266 WiFi Module with PCB Antenna**
·**TIP120 Power Darlington Transistors**
·**Lock-style Solenoid**
·**9v BATTERY**
·**Android app**

Redolant - Digital Marketing Website

A digital marketing platform called Redolant has the ability to show products, pop-up offers, manage users, and track delivery with a specific ID for each purchase. Additionally, it uses the Bootstrap framework for the styles and PHP for the backend application and has a user-friendly interface.
Technologies used:
- **HTML**
- **CSS**
- **JS**
- **Bootstrap**
- **PHP**
- **JQUERY**

Saveetha Cataract App (Medical Project)

This project, is a revolutionary endeavor dedicated to enhancing the quality of life for individuals who have undergone cataract surgery. Cataract surgery can transform your world, but the journey to crystal-clear vision doesn't end in the operating room. It continues with attentive care and support.
Technologies used:
- **Android Studio**
- **Xcode + SwiftUi**
- **PHP**
- **Mysql**

College Department Website

I used the wordpress technology and googlesite hosting for this project. This website is straightforward and static, and different editors can easily change ownership.
Technologies used:
- **Cpanel**
- **Wordpress**
- **Google Sites**

Certificates
